RE: First Board Report, Law School Career Chief Officers Interest Group

June Meeting

The Law School Career Chief Officers Interest Group met by Zoom on June 15 at 2PM, EST. The meeting included informal introductions from each Chief Officer on the call, and an open discussion about key issues and challenges, especially as relates to preparing students for new and emerging trends in the on-campus interview process.

The co-chairs put a call out to the members to submit topics for discussion at upcoming meetings. The co-chairs have yet to determine a standing meeting time, but we anticipate meeting monthly by Zoom to discuss timely topics. It is likely that our next topic will relate to professional identity formation and how career services offices are involved in this effort.
