

NALP Liaison Report – October 2013
ABA Law Practice Division Liaison
Michele Bendekovic

I have recently been asked to serve as the liaison to the ABA Law Practice Division, formerly known as the Law Practice Management Section.

The name change was effective on 9/4/13. The name change is in response to the increase in importance of the business of practicing law.

Michael Downey is the division Chair. He is also a partner with Armstrong Teasdale. He will deliver the keynote speech at the PDC winter meeting on December 11. The division will focus on the four core areas of practicing law – marketing, management, technology and finance.

I have reached out to Pamela McDevitt, the Division Director, to start the conversation of how NALP and the Law Practice Division can collaborate and build a valuable relationship.
