

Jessica Jacobson Fijolek

Statement of Interest: I'm honored to be nominated to serve on NALP's Nominating Committee. I'm interested in getting more involved in NALP and what better way than by helping to manage the nomination and election process for NALP's future leaders. It's an exciting time for our organization as we grapple with the implications of AI on our profession, an early and expedited student recruitment process, and increased staff responsibility in the strategic growth efforts of our law firms. The nomination and election process will be critical in ensuring we have the right leaders in place to take on these challenges.
